

College To Open With Largest Freshman Class

Approximately 275 freshmen will come to Salisbury State College on Sunday, September 12, when the college year will officially open. Dean Orem E. Robinson, Jr., head of student personnel, and Miss Janet Kennedy of Rockville, Md., president of the Student Government Association for 1965-66, will welcome the new students at an assembly program in the College Auditorium on Sunday evening. Activities during the orientation period include an address by President Wilbur Devilbiss, a testing program, meetings with Dean Robinson and Miss Audrey Stewart, Counselor for Women, and a faculty symposium centered around outstanding books designed to stimulate critical thinking. Faculty members participating in the symposium will be Dr. Millard G. Les-Calette, Professor of History, Miss Mary Gay Calcott, Assistant Professor of English, and Mr. Charles Luttrell, Assistant Professor of Mathematics. Following this presentation, freshmen will join student groups for further discussion of the ideas. Student leaders will assist in these discussion groups.

Social activities for the week include a folk concert featuring The Metropolitans, an all-college picnic, swimming parties and a dance.

The Student Government Association and other campus groups will aid in carrying out this program. Allan Gorsuch of Chestertown, Maryland, Chairman of the SGA Social Committee, and his committee will be responsible for the social events of the week.

Approximately seven hundred students are expected to attend Salisbury State College. Upperclassmen will register on Wednesday, September 15, and classes will begin on Thursday, September 16.

On Sunday, September 19, the traditional Freshman-Parent-Faculty program will be held. Following campus tours, an auditorium program will serve to explain the mutual responsibilities shared by freshmen, parents and faculty. A reception will follow.

DR. WILBUR DEVILBISS
Salisbury State College President

student bring to the college a high degree of motivation and desire to learn and improve. It also means that he must be willing to pay the price that success in college demands.

It is a real pleasure for me to welcome the young men and women who are entering Salisbury State College for the first time this September. It is a new adventure, and it is my hope that you will find it most worthwhile. While it is an exciting adventure, it is at the same time most exacting.

I am often asked the question, what is college? Briefly, it is a place in which a student learns how to learn. It is not a place to pass a specified list of courses with acceptable grades, receiving a diploma at the end of four years as evidence that he has been through college. Rather it is a place where the academic, social, cultural, and spiritual programs of the college are arranged to provide stimulating and elevating experiences for each student. For this to happen, it is necessary that each

Advice for College-Bound

(The following is an excerpt from the Jenkin Lloyd Jones column, "Advice for College-Bound" which appeared in the Washington Star on Monday, Sept. 2, 1963).

Dear Frosh:
So you're going to college. Your parents and their adult friends have told you you are lucky. And they are right. But a college education isn't what it was 25 or 30 years ago. It's better. And, generally, it's harder to achieve.

There are still a few easy schools, places where they are

likely to pass anybody with a discernable pulse. But these are getting rarer. The old-time "country clubs" that used to receive you with open arms after you'd been fired out of the Ivy League are getting pretty pecksniffish. They have got waiting lists.

Some of the big State universities still have to take anyone who has a high school diploma. And because some high schools are pretty awful, the universities enroll a lot of freshmen who aren't ready. But they have a gimmick. They throw out the loafers and the staggerers after a semester. It's sad to be bounced out of college, particularly in these days when there aren't many colleges you can bounce into.

Remember this: The first 90 days are critical. If you're on top of your work by Christmas you'll probably survive. Don't let the glamour get you.

College is a bringing out process. It will not make a bad person good or a good person bad. If you are born intelligent, it will bring out your intelligence. If you are born a bum, it will bring out your bunniness.

There are no college drunks. There are only people who revealed themselves as soon as parental restraints were removed.

But college can be a shocking experience. Some youngsters are brought up with a lot of beliefs that won't stand the light of academic inquiry. The first class in geology or sociology or political science can be pretty upsetting.

And out of this upset is born the college radical, who seeks to compensate for his confusion in hot-eyed activism, or the college cynic who sneers because he is, for the moment, without convictions. Time usually cures both diseases.

Look at it this way: You climb a hill. The world looks different. What you see is merely an enlarged horizon, a broadened perspective. The points of the compass have not been repealed. There are still eternal truths and lasting values and good things worth fighting for. The fact that all Greece can be seen at a glance from a jet plane hasn't rendered obsolete what earthbound Plato taught in Athens' little Agora.

College is not the only way to get an education. The world abounds with effective self-taught men and women. College is merely the easiest way to get an education. It hands you carefully programmed and in logical sequence the fruits of man's discoveries.

College is a great privilege. Don't just accept it. Seize it.

Necessary Evil Awaits Freshmen

With the opening of each college year, freshmen are oriented on the many student and campus activities available to them at Salisbury State College. The new frosh is told that college can be a rewarding and pleasant environment — intellectually and socially. Freshmen, however, learn shortly after orientation that there is one college activity which is not pleasant or rewarding; nor, intellectually or socially stimulating — standing in line to pay their college tuition and fees.

This tragic experience, which has been suffered by every upperclassman, is appalling and unhealthy for students since it requires them to remain on their feet for periods exceeding two hours.

The cause for this annual foot-swalling contest cannot be blamed on the college administration, on freshmen, on upperclassmen or on any one individual. It can only be blamed on what society describes as a "necessary evil."

"Necessary evils" do not have to be totally painful. In fact, careful observation reveals that if four suggestions were initiated, standing in the pay line could become a most stimulating experience . . . in one way or another.

First, freshmen should listen very carefully to the instructions, concerning the subject of paying their college debts, given to them during the orientation period.

Second, freshmen should very carefully examine the "Summary of Expenses" sheet in the College Information Booklet. This will save considerable time because students will have an estimate of their college debt and will not have to faint or cause a commotion when notified of the amount they owe by the college business manager.

Third, freshmen should fill in their checks, except for the amount, prior to entering the pay line. Checks should be made payable to Salisbury State College. If this is done, a great amount of time may be saved.

Fourth, every freshman should urge his fellow classmates to listen very carefully to the business manager's instructions and quickly, but efficiently, execute them. If this advice and that of suggestion three is followed, it will only take 30 seconds for a student to complete his transaction with the business manager.

The prompt and efficient application of the above suggestions will relieve you, as a freshman, of the quick and efficient use of epsom salts and hot water which is a major compound for relieving pain of sore metatarsals and phalanges (feet and toes).

DR. EARL T. WILLIS
Dean of Instruction

Music Emanating From New Direction; Facilities Expand

If you hear melodious tones flowing over the campus from the direction of the baseball diamond, don't worry, our team hasn't given up and formed a barbershop harmony group. It is most likely the chorus or instrumental ensemble in the new rehearsal hall practicing for one of their performances.

The Music Department of S.S.C., under Dr. Jessie Fleming and Dr. Frank Carroll, begins the '65 fall semester in its new and lovely music building on the southeastern corner of the campus facing South Salisbury Boulevard.

Skateboards and Hondas just might be "in" this year for on-campus traveling to and from classes in the new building.

The spacious establishment features two large classrooms, one giant classroom — to be used as a rehearsal and recital hall, four practice rooms, three faculty offices, and a large storage room.

Each of the classrooms and practice rooms contain one piano, thus providing a total of seven pianos for student practice. This should relieve many of the problems encountered in the past concerning piano usage.

The general plans for the year differ not too greatly from those of the past year. No new groups have been organized because the busy schedules of Dr. Fleming and Dr. Carroll could not possibly allow the time that it would be necessary to spend with the groups.

There will, however, be a few changes in instruction for the freshman Music Literature course.

The stage band under the direction of Dr. Carroll begins the year with mostly the same members as it had last year. The band will perform in the same capacity as it did last year unless some students have new ideas which could easily be put into action in the director's available time.

JANET KENNEDY
SGA President

WELCOME TO THE CLASS OF '69

As President of the Student Government Association, I speak for the entire student body in welcoming you, the freshmen, to Salisbury State College. For the past few years you have been hearing all kinds of stories about what college life is like. Now it's your turn to see for yourself and separate the fantasy from the reality. As freshmen at college, you are beginning an experience that is well worth having. You are shaping the ground work not only for an academic education, but also for a personality and character that will be uniquely yours. This

MISS AUDREY STEWART
Social Director

MR. OREM E. ROBINSON
Dean of Students

STUDENTS AND IDEAS

As the student begins the Freshman year of College, he is confronted with many complex ideas and problems. The problems may be those of adjustment to dormitory life, new study habits, or adjustment to a large number of unfamiliar people.

Another problem which often presents itself to the Freshman stems from the huge amount of study material which he is expected to absorb within a short period of time. The problem is not the amount of material to be covered but the type of material.

Within the books he must study, the Freshman naturally finds ideas and theories concerning life which are completely foreign to him. In the process of absorbing these ideas and theories, the student may try to apply any one, or possibly several, to his own life. This may have disastrous effects upon his emotional stability and adjustment because the concepts of life in books are not always applicable and foolproof.

They are the concepts of life which the author, or someone else, has discovered through study and practice, and although they may be correct for the originator, no assurance is given that this will be true for the student. The Freshman who attempts to apply many different theories or ideas to his own life is in danger of becoming increasingly confused when determining what is best for him.

The most effective means of preventing confusion in this area is for the student to proceed with caution in the actual application of the new thoughts he meets, and as his experience with these ideas and theories becomes greater he will begin to find it easier to choose those which are applicable to his own life. This takes time but it is an attainable goal for the individual who makes a conscientious effort.

WITH CARE AND CONCERN

Within the next few weeks, members of the Freshman Class will have to perform a duty which should be executed with extreme care and concern — the election of class officers and representatives.

The officers and representatives that you select will be charged with the responsibility of representing you. Those you select should be of such a calibre that they will serve you dutifully and diligently and reflect credit upon your class, the student body and this college.

There is no simple guideline to follow in choosing representatives either in college, local, state, or national elections. The words of a philosopher of ancient Greece, Plato, may, however, serve as an insight to the requirements necessary for electing effective, efficient, and responsible leaders.

Plato stated, "Shall we not require for our rulers men who are by nature of good memory, speedy in learning, high-minded, gracious in manner, friends and brothers of truth, justice, courage, and self-control."

Campus Clubs Urge Freshmen to Participate

Incoming freshmen looking for means to exploit talents will find Salisbury State College overflowing with opportunities for self-expression. There are numerous clubs and organizations which are tailored to fit an individual's abilities and interests. With few exceptions, such as Phi Alpha Theta (history honor society) and Circle K (service organization), membership can be obtained by a show of interest plus a request for membership to a member or the head of the organization.

SGA (Student Government Association) is composed of the student body in its entirety. This most important body governs campus life, including the allocation of funds to corporate member organizations. The student benefits not only through organizational activity but through dances and through cultural affairs including concerts and coffee hours. In the case of all organizations, the individual student has the obligation of cooperating and maintaining interest if the organizations are to operate at full capacity.

Campus residence life is regulated by the WDA (Women's Dormitory Association) and the MDA (Men's Dormitory Association). Each dormitory student is automatically a member of the association in his or her respective dormitory.

Membership in the WAA (Women's Athletic Association) and MAA (Men's Athletic Association)

is automatic with enrollment in college. These groups formulate and administer much of the athletic program for the college, particularly intramural athletics. Meetings of each are held at certain dates throughout the year. They are announced in advance and are open for participation by all members.

Separate, yet closely related to WAA and MAA, is the varsity sports program, which is administered by the athletic department. Men may compete interscholastically in varsity soccer, basketball, baseball, tennis, or gymnastics. Women may compete in field hockey, basketball, and volleyball.

The Student Christian Association offers scheduled programs to anyone desiring to attend. The Association works as the coordinating agent among all denominational clubs which include the Wesley Foundation, Canterbury Club, Newman Club, and the Baptist Student Union.

Students may join the College Chorus which meets twice weekly to prepare music for many programs throughout the year. A cordial invitation is extended to the musically inclined.

The dramatic group on campus is named the Sophanes Players. This organization usually presents three or four major productions each year. Freshmen who wish to express their dramatic ability are urged to join.

At present there are two cam-

Professorial Promotions Announced by President

Dr. Wilbur Devilbiss, President of Salisbury State College, today announced the promotion of five faculty members at the College which will open for its thirty-ninth year on September 12.

Advanced to the rank of Professor of Biology is Dr. Edna Estes. The holder of Master of Science and Ph.D. degrees from the University of Alabama, Dr. Estes has also done research work in the field of radiation biology at the Marine Laboratory of Duke University. Prior to joining the Salisbury State College faculty in 1960, Dr. Estes, a native of Jasper, Alabama, taught at Flora McDonald College in North Carolina, at the University of Alabama and at St. Mary's Seminary Junior College. Dr. Estes holds membership in Sigma Xi, national honorary fraternity in research, the American Association for the Advancement of Science and the American Society of Plant Physiologists. She currently serves as president of the Salisbury Branch of the American Association of University Women.

Named as Professor of History is Dr. Millard G. LesCallette. A native of Crisfield, Maryland, Dr. LesCallette earned a Bachelor of Arts degree from Western Maryland College and a Master of Arts degree from the Johns Hopkins University. His Ph.D. degree was conferred by the University of Maryland where he served as an instructor prior to joining the faculty at Salisbury State College in 1959. Dr. LesCallette's memberships include Phi Alpha Theta, honorary history society, Phi Kappa Phi, national honor society, the Academy of Political and Social Science, the American Historical Society, the Mississippi Valley Historical Association and the Wisconsin Historical Society. Dr. LesCallette has been active in the Civil War Roundtable, a local group of citizens interested in the observation of the centennial of the Civil War.

Dr. Frank M. Carroll has been named as an Associate Professor in the Music Department. Dr. Carroll, a native of Virginia, joined the SSC faculty in 1963. He earned a Bachelor of Music degree at the Shenandoah Conservatory of Music in Dayton, Virginia. His Master of Music degree was conferred at the College of Music. Dr. Carroll earned his Ph.D. degree at the Eastman School of Music at Rochester, N. Y. Prior to coming to Salisbury State College, Dr. Carroll taught in the public schools of Virginia and Massachusetts and at Maryland State College.

Named as Assistant Professor of English is Miss Mary Gay Calcott, a native of Virginia, earned a Bachelor of Arts degree at Randolph Macon Women's College where she was elected to membership in Phi Beta Kappa. She earned a Master of Arts degree at the University of Virginia where she was elected to membership in "Lychmos" honor society for women at the university. Prior to joining the faculty

at Salisbury State College, Miss Calcott taught in the public schools of Maryland and Virginia and served as an instructor at Mary Washington College in Fredericksburg, Virginia.

Deane E. Deshon has been named an Assistant Professor in the Physical Education Department. Mr. Deshon, who joined the SSC faculty in 1962, is a native of Maine and holds a Bachelor of Science degree from the Maine Maritime Academy. He earned a second Bachelor of Science degree at the University of Maryland which also conferred his Master of Science degree. Mr. Deshon, who served as Recreation Director of the city of Rockland, Maine, for the past two summers has been engaged in advanced study at the University of Toledo. Mr. Deshon serves as coach of men's varsity basketball and baseball at Salisbury State College in addition to his teaching responsibilities.

An Upperclassman's Opinions

It's my opinion that . . .
The library should be open more on weekends.
Girls should have free "one o'clocks" on Friday nights.
All geography majors should get two free credits in art.
We should have better food on weekends.
SSC shouldn't be a "suitcase campus".
Dr. Wroten should open his private pool room to the students.
Anyone who gets an A in Physical Science should teach Greek.
Day hops should unite.
A certain professor should bring his "boob tube" out of cold storage.
Mr. Farace should write an article for "Your Professor Speaks".
Students should have more school spirit.
We should plan now to revive "Mayhem".
Pre-registration for freshmen is a good idea.
The Holly Leaf needs less poetry.
We should have more snack bar dances.
The Geographic Society should get those dancing girls that wouldn't fit into the budget last year.
SSC needs a Phys. Ed. major.
Carrolls should have delivery service.
Carol Hench should tell the real story about the Irish House.
We should name the buildings on campus.
All clocks on campus should be synchronized.
But then, that's only my opinion.

By Sue Reifsnider

Women's Sports

By Bettie Messick

As all other organizations welcome you to Salisbury State College, may the Woman's Athletic Association extend a warm greeting to all the young women of the College. The Association is looking forward to having some bright new faces in its sport's field and some bright new ideas in its sport's program. We particularly welcome the freshmen women and hope to see you participate in sports for our College.

The W.A.A., as we frequently call ourselves, is the sports organization for the women. All women are automatically members of the Association and are eligible to participate in any sport sponsored by the W.A.A. If there doesn't happen to be a sport on campus that you would like to participate in, the W.A.A. will be glad to try and sponsor it. This is your organization, run by you for you, and it can only operate through your participation and interest.

This year's office holders are President, Arsie Tate; Vice President, Bettie Messick; Secretary, Carol Hench; Treasurer, Sylvia Leonhardt; Senior Advisor, Beverly Stelges, and Faculty Advisor, Dr. Althea Whitney. The W.A.A. Board consists of these members plus the managers of each sport, the sport's editor and the cheerleader captain. Whenever there is a W.A.A. Board meeting, anyone may attend but only the Board members have the power to vote. These meetings are usually held every other Tuesday in the classroom of the new gym.

There is a wide range of sports, both varsity and intramural, played at the College: field hockey, volleyball, basketball, tennis, softball, golf and badminton. Other activities include judo, modern dance, bowling, archery, and fencing. If there is not a sport listed in which you are interested, don't hesitate to tell your officers about it. You may have started something that no one else would have thought of starting.

Best of luck to all in your academic year and have a wonderful sport's year also.

of 1969. This year we would like to have your help in giving the Gulls' Soccer Squad a first class season. The time and place for the tryouts will be announced by Coach Maggs.

Looking farther ahead, basketball season begins with practices in November. Again this season, Coach Deane Deshon will be looking for prospects from the Fresh-

man class to round out the squad and help in making it a winning team. The Basketball Gulls of last year won only three games but several were lost by a margin of less than five points. We look forward to this season and hope that some of our Freshmen will be able to give us the extra push needed for a winning team.

College Faculty Gains Nine New Members

Salisbury State College will open on September 12 for its thirty-ninth year with an anticipated enrollment promising to be the largest in its history.

As a result of the increased enrollment, Dr. Devilbiss, President, stated that nine faculty members would be new to the campus this year.

Named as Director of Practice and Associate Professor in the Education Department is Dr. Mark M. Atkinson. Dr. Atkinson, a native of Delmar, Maryland, attended Salisbury State College where he served as an assistant in the department of Social Science, prior to attending the University of Chicago where he earned Bachelor of Arts and Master of Arts degrees. His Doctor of Education degree was earned at Columbia University.

During Dr. Atkinson's tenure as a teacher at Seaford High School, he served as the state director for the Social Studies Project of the State Department of Education of Delaware. His experience in supervision and administration of public schools include service in the Harborfields Central School District, Greenlawn, New York, and the White Plains School District, White Plains, N. Y. Most recently he has been Director of Curriculum in the West Babylon (L. I.) School District and an Adjunct Professor of Education at Hofstra University. He currently teaches at New York University.

Dr. Atkinson holds membership in the National Education Association, the American Association of Supervision and Curriculum, where he serves as a director and a member of the Publications Committee. He is also a member of the Middle States Association of Secondary Schools and Colleges.

Dr. Atkinson, a frequent contributor to the New York State Educational Journal, is co-author of *The Educator's Encyclopedia*.

Joining the faculty as Reading Specialist and Associate Professor of Education is Dr. Rose R. Scheck. A native of Connecticut, Dr. Scheck holds a Bachelor of Science degree from West Chester State College in West Chester, Pa. Her graduate work was done at Temple University which conferred her Master of Education and Doctor of Education degrees. Dr. Scheck has been a public school teacher in Connecticut and Maryland. Prior to coming to Salisbury State College, Dr. Scheck served as Reading Specialist for Cecil Coun-

ty, Maryland. Dr. Scheck has also taught at the University of Delaware and Temple University. She is a member of the National Education Association, the National Council of Teachers of English, and the International Reading Association.

Dr. Arthur Nayland Page will join the faculty as Associate Professor of History. Prior to coming to Salisbury State College, Dr. Page did advanced research at the University of Santiago, Chile as a Fulbright grantee. A native of Texas, Dr. Page earned his Bachelor of Arts degree, magna cum laude, at the Texas College of Arts and Industries which also conferred his Master of Arts degree. His Ph.D. degree was earned at the University of Oklahoma where he served as a graduate assistant. Dr. Page has also been an associate professor of History at Texas College of Arts and Industries. He is a member of Phi Alpha Theta, honor society in history.

Robert E. Smith, III has been named an assistant professor in the English department. Mr. Smith holds a Bachelor of Arts degree from Washington and Lee University and a Master of Arts degree at The Johns Hopkins University. In addition, he has done two years of advanced study in contemporary literature. His short stories have been published in *Shenandoah*, *Hornbook*, and *Channels*, literary quarterlies. Mr. Smith, a native of Baltimore, served as an instructor at Dickinson College, The Johns Hopkins University, and the State University of Iowa. He holds membership in the Modern Language Association.

Joining the faculty as an instructor in biology will be Louis H. DiSalvo. Mr. DiSalvo, whose special interest is Marine biology, holds a Bachelor of Arts degree from Rutgers University and a Master of Science degree from Arizona State University. Stanford University selected Mr. DiSalvo as a student participant in its International Indian Ocean Expedition. In 1964, he was supported by the Atomic Energy Commission in carrying out independent coral reef studies. He has published several scientific abstracts. Mr. DiSalvo's professional memberships include the American Society of Parasitologists, the American Society of Protozoologists, the International Oceanographic Foundation, and the American Littoral Society.

Appointed to the Department of Foreign Languages are William S. Kurtz as instructor in Spanish and

Miss Alice V. Beaulieu as instructor in French. A native of Pennsylvania, Mr. Kurtz has spent the last five years in Madrid, Spain where he earned a Master of Arts degree from Middlebury College's Graduate School in Spain. He attended the University of Pennsylvania and the University of Indiana prior to earning his Bachelor of Arts degree from the University of Maryland.

Miss Beaulieu is a graduate of Catholic University where she earned a Master of Arts degree. A native of Canada, she has spent much time in Europe serving as an interpreter.

Named as an instructor in mathematics is Paul D. Wasik of Baltimore, Md. Mr. Wasik, who has taught in the Maryland public schools, holds a Bachelor of Arts degree from Columbia Union College and a Master of Arts degree from the University of Maryland.

Alton C. Thompson has been appointed as an instructor in geography. Mr. Thompson is a graduate of Wisconsin State College where he earned a Bachelor of Science degree. His Master of Arts degree was conferred by the University of North Carolina at Chapel Hill. Mr. Thompson is a member of the Association of American Geographers.

SPORTS

(Continued from Page Two)

In the spring the young man's fancy turns to baseball (?). The Gulls baseball squad is also coached by Mr. Deshon and the situation here is practically the same as basketball: a dismal season, last year in the record books but with several bright prospects. Again Mr. Deshon would like to see many new Freshman faces to give the Gulls a boost this spring.

In all these sports, there are good opportunities not only to make the squad but also to play. We're looking for people who have desire and drive as well as pure ability. If, however, you don't make the varsity grade, there are plenty of sports opportunities in the Physical Education and intramural program.

One last point: we ask your support for the Gulls in all of their sports activities. Whether it's win, lose or draw let's get behind our teams and show them we appreciate their efforts. This is something we all can and should do.

So with the warm-ups out of the way, bring on the action — The GULLS OF '65!

by Wayne Powell

Requirements for Boarding Freshmen

1. Attend all meals; men to wear jackets and ties for dinner.
2. Expect daily room inspection (by upperclassmen).
3. Expect daily fire drill; know proper procedures involved.
4. Be familiar with the **Handbook**, dormitory constitution, dormitory rules and regulations.
5. Memorize the Alma Mater.
6. Wear beanies (men remove them in class and for salute to the flag, singing of the "Star Spangled Banner," etc.)
7. Know the names of people in 6 rooms nearest to one assigned and where they are from.
8. Wear name tags at all times except when in dormitory room.
9. See that the telephone in your area of the dormitory is answered.
10. Prepare study schedule (2 hours of study for each hour of class) and be prepared to show it on request.
11. Be able to identify by name your faculty instructors, all College administrators, all SGA officers, and all dormitory officers.
12. Be able to identify all buildings on the campus.
13. Learn the schedule of hours for the Library.

Requirements for Day Freshmen

1. Be familiar with the **Handbook**, dormitory constitution, dormitory rules and regulations.
2. Memorize the Alma Mater.
3. When on campus wear beanies (men remove them in class and for salute to the flag, singing of the "Star Spangled Banner," etc.)
4. When on campus wear name tags at all times.
5. Prepare study schedule (2 hours of study for each hour of class) and be prepared to show it on request.
6. Be able to identify by name your faculty instructors, all College administrators, and all SGA officers.
7. Be able to identify all buildings on the campus.
8. Learn the schedule of hours for the Library.

MUSIC

(Continued from Page One)

The size and balance of the college chorus, under the direction of Dr. Fleming, will depend greatly on the '65 freshmen who are interested in joining this group. FreshMEN, keep this organization in mind, or better yet, on your schedule!

An open house will be held in the new music building early in the fall; however, plans for it are rather indefinite at present.

The students can feel very fortunate and glad that, with the new arrangements, there should be ample opportunity and space for practice provided for all interested in the college's music program.

CALENDAR FOR 1965 - 1966

September	12, Sunday	Opening of Dormitories for Freshmen
	13, Monday	Freshmen Tests, 9 a.m. - 4 p.m., Auditorium
	14, Tuesday	Freshmen Registration, 9 a.m., Auditorium
		Opening of Dormitories to upperclassmen, 3 p.m.
November	15, Wednesday	Senior Registration, 9 a.m.
		Junior Registration, 9 a.m.
		Sophomore Registration, 10 a.m.
	16, Thursday	Classes begin for all students
December	6, Saturday	Alumni Homecoming
	12, Friday	Midsemester
	24, Wednesday	College closes for Thanksgiving holidays, 11:50 a.m.
	29, Monday	College classes resume at 8 a.m.
January	17, Friday	College closes for Christmas holidays, 11:50 a.m.
February	3, Monday	College classes resume at 8:00 a.m.
	20, Thursday	Examinations begin
	29, Saturday	Examinations end
April	8, Tuesday	Registration for second semester
	9, Wednesday	Classes resume at 8:00 a.m.
May	1, Friday	Midsemester
	6, Wednesday	College closes for Easter holidays, 11:50 a.m.
	12, Tuesday	Classes resume at 8:00 a.m.
June	25, Wednesday	Examinations begin
June	3, Friday	Examinations end
	5, Sunday	Baccalaureate, 3:00 p.m.
	6, Monday	Commencement, 10:30 a.m.
